See note in red ink, which Registers and Receivers will read and EXPLAIN THOROUGHLY to persons making application for lands where the affidavit is made before either of them.

NOTE.—It is required of the homestead settler that he shall reside upon and cultivate the land embraced in his homestead entry for a period of five years from the time of filing the affidavit, being also the date of entry. An abandonment of the land for more than six months works a forfeiture of the claim. Further, within two years from the expiration of the said five years he must file proof of his actual settlement and cultivation, failing to do which, his entry will be canceled. If the settler does not wish to remain five years on his tract, he can, at any time after six months, pay for it with cash or land warrants, upon making proof of settlement and cultivation from date of filing affidavit to the time of payment.

Timber land, entered in a homestead, or other entry not consummated, may be cleared in order to cultivate the land and improve the premises, but for no other purpose. If, after clearing the land for cultivation, there remains more timber than is needed for the purpose of clearing the land, the settler may, at any time, remove the same for any other purpose, but the question whether the land is better cleared of the timber for agricultural purposes is a question of fact which is liable to be raised in any case, and the settler is liable to be required to prove that the land is better cleared of the timber for agricultural purposes, and also to remove the same for any other purpose, and also to remove the same for any other purpose, and also to remove the same for any other purpose.
